## No-touch integrated solution.

Air + water + soap | all-in-one

### No more water in the floor

With this fully electronic integrated solution, users won't need to move away from the sink, thus avoiding any residues of paper, soap or water on the floor, a typical downside of traditional system.

Simple

Hygienic

Ecologic

### Sink in Corian® Dupont™

Corian® is an outstanding, versatile and easily customisable material, which always guarantees the highest levels of performance and creativity to suit every need. The sink is 12 mm thick.

### Invisible opening

SuperTris is equipped with a magnetic opening system (key supplied), which makes it easy to inspect the air filter and refill the soap tank. Hidden magnetic opening system with no external screw.

### Electronic hand dryer

Dries hands in only 20 seconds with a warm and pleasant air flow.

### Electronic tapware

An easy-to-use, energy-saving solution for a rational and intelligent use of water resources.

### Electronic soap dispenser

Equipped with liquid dispenser and peristaltic pump, it also features an anti-drip system to ensure maximum hygiene and sink cleanliness.

### Flexible and customisable

A wide array of colours, finishes and sizes to choose from. SuperTris modular system can be adjusted to fit all spaces. Each emplacement is composed of a soap dispenser, a tap and a hand dryer which are all electronic. The mechanical, water and electronic parts are pre-assembled and the electric components are protected IP 67.

### Sloped sink

The sink is available with single sink or sloped bowl and in all Corian® colours.
